Get Started

Find resources available from the library's collection.

¿Busca un libro, revista o un diario en particular? *Full Text Finder* es un servicio de búsqueda y análisis del estado del arte en su base de conocimientos para localizar publicaciones en la colección de su institución, independientemente del editor o proveedor. En este tutorial, veremos las características de **Publication Finder**, que incluyen la búsqueda y navegación. **Tenga en cuenta** que la interfaz de usuario de Publication Finder admite funciones de accesibilidad web y la mayoría de las funciones, como la operatividad del teclado, el contraste de color, etc., se prueban en los principales navegadores.

Get Started

Find resources available from the library's collection.

La búsqueda por título de una publicación, se simplifica con una función de autocompletado sensible, que muestra títulos que contienen sus términos de búsqueda a medida que escribe. Cuando el título deseado aparezca en la lista, simplemente haga clic en el nombre de la publicación para realizar una búsqueda de esa publicación o haga clic en la lupa para realizar una búsqueda.

Quando visualice un cuadro de búsqueda disponible para las facetas, puede realizar la búsqueda por términos temáticos o materias y refinar su búsqueda.

The screenshot shows a search interface with a left sidebar for filters and a main area for search results. The sidebar includes a 'Filters' section with a close button (X), a 'Limit To' section with a checked checkbox for 'Peer Reviewed Journals (165)', and a 'Subjects' section with a search input containing 'medicine' and a list of subject categories with checkboxes. The main area shows 'Results: 165' with a 'Clear filters' link and a 'Relevancy' dropdown. Three search results are listed, each with a 'Journal' label, a title, ISSN, subject terms, and 'Full Text Access' options.
